

## Arabic display problem yt\_framework

Posted by Youness tallih - 27 Mar 2012 22:46

---

hello,

I congratulate you for the good work you made, I download template but when I change yt\_framework\_quickstart\_j25\_v1.0 Arabic question mark (???) is that you can help me

and thank you in advance

I thank you for having answered quickly,

look at the image is already in utf8\_general\_ci

Dear Youness tallih

I think you made a mistake. it is hard to debug. Can you submit a ticket, give us admin account, your site for checking?

Thanks
