

SJ Login - CB and language adjustment

Posted by Carol Bochmann - 24 Jul 2012 02:55

Hi,

- does SJ Login work with CB (Community Builder)?
- can the language in SJ Login be adjusted (without coding...)?

Thanks!

Mhmmm..... seems to be a difficult question 😊

or is everybody on holiday? 😊

Hi Carol,

I'm so sorry about late. I was out of the work at that time so now i can reply for you.

- does SJ Login work with CB (Community Builder)?

==> No, we don't. We just only support for login form.

- can the language in SJ Login be adjusted (without coding...)?

==> Yes, it can.

Thanks!

With CB being one of the most used component for Joomla, I am wondering whether anybody here would be able to adjust the SJ Login to Community Builder...

Would be nice.

☺
