Hello, I bought SmartNews joomla 1.7, joomla and upgraded to 2.5 then gave problems in some modules. I contacted you and downloaded the updates and also indicated the plugin did not work, unlike worsened. It has the ability to have this smart-template news_quickstart already ready for joomla 2.5?

Hi Aster Farias da Silva,

I think that you can use the smart news quick start package j25 on our site.

It is compatible with Joomla25.

Thanks
