Hi Gidi Shachar,

Please check somethings relating to your problems as the followings:

- your image folder at first. Does it really exist?
- check some params. Are they really configured exactly?

You can refer to the user guide of plugin as the following link: www.smartaddons.com/joomla/extensions/extension-user-guides/456-sj-image-boxes-plugin-userguide

Thanks

Dear Gidi Shachar,

Please check the parameters which you enter in article content. Example:

```
{imageboxes}rotate="1" and image_width="720"image_height="480";
```

```
{imageboxes}rotate="1" folder="images/gallery" panel_width="770";  
sort_type="1" panel_height="580" col="4" row="3";  
image_width="720"image_height="480" show_type="0";  
show_title="0";{/imageboxes}
```

change to:

```
{imageboxes} rotate="1" folder="images/gallery" panel_width="770";  
sort_type="1" panel_height="580" col="4" row="3";  
image_width="720" image_height="480" show_type="0";  
show_title="0";{/imageboxes}
```

Thanks

Dear Gidi Shachar,

Because your insertion manner is not exact. Example:

`{imageboxes}rotate="1"` ==> `{imageboxes} rotate="1"`;

`image_width="720"image_height="480"` ==> `image_width="720"`
`image_height="480"`;

Each parameter in tag couples `{imageboxes}` and `{/imageboxes}` must separate by a space.

Thanks
