

Mod_slideshow I I

Posted by chris nestoridis - 08 Mar 2013 16:15

Hello

when I select an article to read and it goes to it's page,

I can see only this article and it will not show "more articles".

thnx

Dear chris nestoridis,

We see that the slideshow II module is normal on your site now.

When you click an article, it is redirected to an article page.

Could you please explain your mean more detail?

Thanks
