

Urgent reply about problem at my website!!!

Posted by metin güner - 02 Aug 2012 01:48

I download quickstart pocket . I tried lots of solutions , I setup 3 times but I received warning about error. Everthing is ok at homepage but we can not see the pictures also the ingredients are complicated... Could you please help me about these problem .My website is : www.mackazan.org

Hi metin güner,

I see that your site is normal now.

Could you please explain your question in detail?

Thanks

Hi metin güner,

Could you please check your site url again?

I can not access it now.

Thanks
