

i want module to view video

Posted by Darya Said - 04 Aug 2012 00:05

I want Module to view a video such as Slade Shaw, for example, this Module

www.apptha.com/category/extension/Joomla/HD-Video-Share

can you help me to module and how can i used

thanks

Hi Darya Said,

I understand your mean but there is not a module which you want to have on our site now.

Thanks
