Dear jodi lean,

Maybe this issue is appeared by the version of php.

Please receive and re-install the updated sj slider module.

About the sj mega news module, please go to "modules/mod_sj_meganews/mod_sj_meganews.php", finding:

require_once __DIR__ . '/core/helper.php';

=>

require_once dirname(__FILE__) . '/core/helper.php';

Thanks
