

[SOLVED] remove vertical lines in the header

Posted by Thierry - 27 Dec 2013 10:00

Hello,

how to remove or change the color of vertical lines between the different modules : search, social, contact in the header

Thank you very much

Dear Thierry,

Please go to your `_site/templates/sj_plus/css/template-blue.css` and find, then remove:

```
#yt_header .row-fluid > div:before {  
  border-left: 1px solid #DDDDDD;  
  box-shadow: 1px 0 0 #FFFFFF;  
  content: '&quot;&quot;;  
  float: left;  
  height: 50px;  
  margin-top: 20px;  
}
```

Thanks!

It's ok

Thank you very much and Happy New Year 😊

This does not work for me. I use the red css style and responsive.

When i remove the code below, it is still there when i view the css browser generated code.

I can change all .css in the directory, no effect. Why?

Something todo with less?

Dear tkj,

If you working with .less, please go to your_sitetemplatessj_pluslesslayout.less and find, then remove it:

```
.row-fluid > div{
    &:first-child{
        &:before{border: none;.box-shadow(none);}
    }
    &:before{content: "&quot;&quot;;border-left: 1px solid #ddd;height:50px;margin-top: 20px;float:
left;.box-shadow(1px 0 0 #fff);}
}
```

Thanks!
