

problème language arabic template Sj News

Posted by Youness tallih - 27 Apr 2012 00:41

hello,

I installed quickstart SJ News

I have a problem with the arabic language??? on the menu I changed the menu table to UTF-8 but still it change anything and it was the same problem on yt_framework template but you have set but I do not know how you did it so can give me a tutorial how you did

just the problem of SJ News and yt_framework

Smart news template it works very well

and thank you in advance

sorry for the inconvenience I have a problem when I add image Article

here is the error:

Warning: Division by zero in /

homepages/33/d330055841/htdocs/noumidia/plugins/system/sjcore/core/ytools/ytools_image.php on line 252

Hi Youness tallih,

you can download and re-install the latest version of sj core plugin on our site.

Thanks
