

top left position add header template smart news

Posted by Youness tallih - 03 Jul 2012 04:13

hello

I wanted to add a position in header

in layouts / left-right-main.xml

position> width="730px" height="90px" type="modules"> header3

templateDetails.xml in:

header3

what code in css template to define such

```
# {header3
```

```
float: left;
```

```
top: 5px;
```

```
width: 730px;
```

```
height: 90px;
```

```
}
```

thank you

Hi Youness tallih,

Please open the yt_template.class.php file in
"your_site/templates/smart_news25(17)/includes", finding:

```
echo "".date('D jS, M Y')." -- Updated ".gmdate("h:i:s A",  
$sec+$tz)." GMT";
```

change to your language.

Thanks

Dear Youness tallih,

Please go to "templates/smart_news25(17)/includes/yt_template.class.php", finding:

```
echo &quot;&quot;;date('D jS, M Y').&quot;; -- Updated &quot;;gmdate(&quot;;h:i:s A&quot;;,  
$sec+$tz).&quot;; GMT&quot;;;
```

=>

```
echo &quot;&quot;;date(JText::_('DATE_FORMAT_LC2')).&quot;; -- Updated &quot;;gmdate(&quot;;h:i:s  
A&quot;;, $sec+$tz).&quot;; GMT&quot;;;
```

Otherwise, you can install the arabic language package.

Thanks
