

How do I turn off the phone web page ?

Posted by supawuth - 18 Jul 2012 05:18

The web pages. Listed in the telephone system. It's like opening your computer. We will need to set it straight.

Hello supawuth,

You can go to template manage part and turn off phone web mode.

Thanks!

Hello supawuth,

Could you submit a ticket?

We will check and help you.

Thanks!

Hello supawuth,

I checked your image.

I see that your config is correct.

If you want on window display like on the phone you can select Window layout is 'mobile.xml'.

Thanks!
