Dear Torun121

In this case, you need to purchase Copyright Removal from this link www.smartaddons.com/index.php?page=shop.product_details&flypage=flypage.tpl&product_id=177&vmcchk=1&option=com_virtuemart&Itemid=338

Thanks

Hi!

Fee for removing the company (smartaddon) link is ok. But why is the a joomla (Joomla! is Free Software released under the GNU General Public License.) link there. Don't you think this is a security hazard. On the one hand we are installing components to remove Joomla tags from the site and on the other hand the template is generating tag to announce to hackers "come hit me".

Also there is a link to the logo that pull the "SJ World News - Best of Joomla" that is totally unnecessary.

I don't mind having a link back to your site saying the template was designed by you but I feel in all fairness the other links should be removed.

Hope you will provide the instruction on removing these unnecessary link.

Thanks

I think you missed the point. Does Joomla hold a copyright or Smartaddon? So why are you charging a fee to remove the Joomla link?
